Farm, plant and hatchery: The Taylor Shellfish experience

12 June 2017

By James Wright

Bill Taylor, president of Taylor Shellfish Co., led a tour of its operations in Puget Sound following the SeaWeb Seafood Summit, which was held in nearby Seattle. Taylor explains how the company monitors water and product quality at its farm in Totten Inlet.

Global Aquaculture Advocate Editor James Wright toured Taylor Shellfish Co. operations in Puget Sound following the SeaWeb Seafood Summit, which was held in nearby Seattle. Taylor, one of the leading U.S. shellfish suppliers, offered conference attendees an up-close look at its farming, processing and hatchery operations. The tour stopped in Totten Inlet, Shelton and Quilcene Bay.
